### Who was Nimrod\*

-His name means "rebellion" or "let us rebel". He was the leader of a revolt against God culturally and spiritually through the Babylonian system that has its roots in him.

-He was the grandson of Ham. Great-grandson of Noah.

-He organized the first secular government in the city of Babel (which later became Babylon). He instituted a system whereby one or a few at the top profit from the labor of the majority under them. This grasping, enslaving principle of government, intertwined with economic manipulation, has dominated the world ever since. Governments has risen and fallen, but their basic principles have remained—competition and strife based on greed and pride (Psalm 10:2-11)

-Regardless of the particular form of administration, the civilization that now holds the entire world under its sway is the same Babylonian system initially established by Nimrod. This world's system of government is not God's. (See video 1)
