RSVP at our Website

Dr. Simon is President Emeritus of Kentucky Doctors for Life. **(Since 1985)**

Dr. Simon is director of the American Family Association of Kentucky and has been since he opened this affiliate in **1993**, now known as Kentucky Family Association

In **1985**, Dr. Simon founded Freedom's Heritage Forum, a political action committee. He now volunteers for this political action committee. This PAC publicizes Sample Ballots for the May Primary and November General Elections, and recently partnered with Heritage Alliance to provide an online voter guide for the Commonwealth of Kentucky: ivoterguide.com

In **Dec 2003**, Dr Simon started a weekly half-hour news program called **The Rest of the News.**

In **2009**, Dr. Simon started the TEA Party of Kentucky, Inc

In **2010**, Dr Simon started Kentuckians for Freedom, LLC, a news and educational association, which publishes a newsletters called "Freedom Speaks Out". At election time, they publish a voter guide.

In **March 2017**, Dr Simon started a weekly live call-in radio program called The Rest of the News. That program ran until 2022. And special reports are still posted to our Rumble Channel.

Since 1993

Kentucky Family Association

September 2024 Edition

With a Disciples Heart

I want to introduce you to a friend of the **Kentucky Family Association**, who has been an example to many through her personal journey on how one person can take a stand for Kentucky. I know that we often ask ourselves, "I am just one person, what can I do?" Well, I think we can take it one day at a time, one step at a time, like Darlene Ruffra. And now in her own words, she tells you about how she has been a vital part of **Kentucky Family Association.**

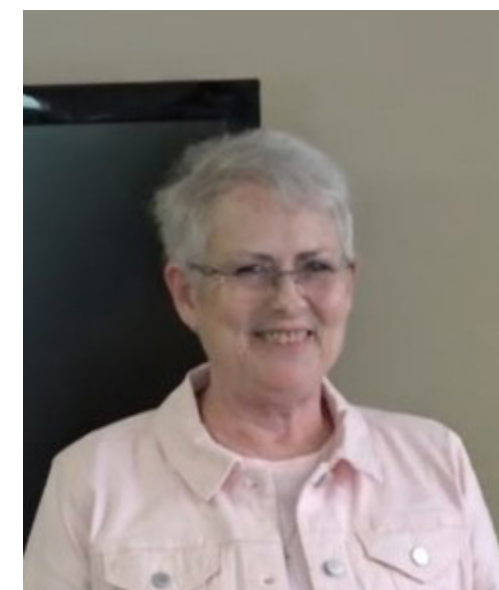

"My journey to the **Kentucky Family Association** began in 2020. At that time, I was working with what I thought was a Christian Conservative organization that operated on a national level. However, when the pandemic hit, this organization decided to suspend all their local activities including their monthly meetings. In the meantime, a friend invited me to attend a volunteer meeting at KFA. At that first meeting I felt a kinship with the other volunteers.

During this time, I had developed a deep interest in researching Socialism and Communism. In my research I noticed a strange connection between that Marxist ideology and what was going on in our country with the lockdowns and mandates. As many people who study this topic know, the Communist Agenda contains 45 goals for America and as of 2020 all but one of those goals had been accomplished. Since I have a teaching background and a love of history, I felt a strong sense of urgency to put together a series of classes on this topic. However, the organization I was working with threw a lot of bureaucratic roadblocks in my way. But when I approached KFA about holding the classes they were supportive and opened their

meeting room to me. Consequently, after spending several weeks covering Socialism, Communism, Fascism and Capitalism, I spent the next year and a half facilitating a variety of geo-political topics for the group that attended the classes. Notice I didn't say that I taught the classes because I learned as much as anyone else. Frankly I believe that we learned from each other. That is what happens when like-minded people come together in search of the truth.

I think it's very important to make everyone aware of the mess our country is in because we have forgotten our founding documents and therefore, we are not teaching them to our children and grandchildren. As a result, we have fallen victim to the Marxist agenda that is etching away at our freedom every day. KFA has been a valuable partner in helping educate those who are open to rediscovering the Declaration of Independence, the U.S. Constitution and the Kentucky Constitution. We held classes on all three of these topics and provided every participant with a copy of these documents.

After taking some time off to recover from a serious illness and to spend more time studying and researching current events and their prophetic implications, I'm making presentations again on a bi-monthly basis for KFA.

Darlene Ruffra

What concerns me is that so many people in the Christian Conservative movement are looking for answers to our country's problems in the political arena or by following those in the "Truther Movement." Jesus tells us in John 14:6, "I am the Way the Truth and the Life, and no one comes to the Father except through Me." So, He is the only "Truther" I am interested in following. So, that is why I am partnering with **KFA** to hold a series of classes called "Back to the Bible" where we can all come together and learn His truth. Notice again that I did not say I am teaching these classes. No one teaches the Bible, it teaches us!

I encourage anyone interested in building God's Kingdom to get involved and stand up for what you believe. It will change your life for the better and you will see that one person really can make a difference."

Darlene Rufra is walking out her calling as God has revealed His purpose to her and she is impacting those

God has put in her path, She is a shining example of "What can I do to take a stand in Kentucky?"

Children Are Benefiting From Your Generous Donations.

If, and until, Kentucky passes the amendment to the Kentucky constitution that allows for school choice, we are trying to help families who have chosen to homeschool their children, by supplying curriculum, through scholarship, to them that is affordable and fosters a system teaching a child to be resourceful, independent, and accountable to their work.

We wanted you to know that through a recent campaign to raise funds, we were able to supply almost \$10,000 for homeschool students participating in the ACE (Accelerated Christian Education) program. Thank you so much for your contributions. Overall **Kentucky Family Association** has been able to help 121 students at 6 alternative Christian schools throughout the state.

We held a meeting in June with some educators to address other concerns and challenges they are facing while they struggle to meet the expenses

of their Christian school/homeschool programs.

School choice, also termed "freedom in education", is something that every state surrounding Kentucky offers and has a track record that we can measure the results for families in those states.

Just think how having the lawful means to pursue other ways to finance an education that meets the needs of your child would be a win for all students. Amendment 2 would even open up the opportunity for charter schools that would be a public option.
